Be It Officially Noted That

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by the Road Running Technical Council. If any changes are made to the course, this certification becomes void, and the course must then be recertified.

Verification of Course --- In the event a National Open Record is set on the course, or at the discretion of USA Track & Field, a verification measurement may be required to be performed by a member of the Road Running Technical Council. If such a remeasurement shows the course to be short, then all pending records will be rejected and the course certification will be cancelled.

This certification expires on December 31 of the year: **2036**

Run the Runway 1 Mile Tanner, Alabama

Primary Map to Scale

This course was measured using the full width of the paved surfaces and the shortest possible route. Due to the surface serving as an active Airport and safety concerns to limit the possibility of foreign object debris (FOD) on the active taxiway and runway surfaces, only the FINISH is marked with permanent washer and nail.
