

## Dan Patch 5k Pace

June 24, 2006

MN-06017-RR

**Course:** Start westbound on 140<sup>th</sup> St at Lifetime Fitness. Turn left (N) on Louisiana, across Connelly Pky, then right (E) on the bike trail. Turn very sharp left (N) when the trail goes north toward McColl Pond. Take that trail to Louisiana, continue north, then left (W) on Taylor and right (NE) onto the bike trail at McColl. Right (S) on the bike trail along Dakota, cross the N entrance to the park, then right (W) on the sidewalk. Left (S) on the bike trail, curving right (N) to go around the ball diamonds, then finish where two bike trails join.

**Start:** 140<sup>th</sup> St about 28 m E of entrance to LTF N parking lot, exactly in line with SW edge of asphalt bike trail leading generally east. See Start Detail.

**1 Mi:** Bike trail 19 m N of post & sign "D1" at S end of McColl Pond, near sign "No Swimming Allowed."

**2 Mi:** Bike trail along McColl Dr, about 1/10 mi W of Dakota, exactly 19 m W of sign "JCT Scott County 27."

**3 Mi:** Bike trail around ball fields, between field 3 & 4, 1 m W of right field fence of field 3.

**Finish:** SE of ball fields, where bike trail from the west meets another trail coming from the north. See Finish Detail.

**Race Director:** No cones are required to limit runners' use of the paved surfaces, but runners will need direction to stay on the course. In particular, a volunteer should be stationed where runners turn N off of Connelly onto the bike trail to prevent runners from taking an existing short cut through the grass. Except for the short bit of sidewalk leading off of Dakota, the race is measured using roads and bike trails. Runners may be directed to use other sidewalks if the police feel it's necessary, and if so the course will be slightly longer but still certified. Measured points are marked in fluorescent red paint with a line and a symbol (S, 1, 2, 3, F).
